

International laboratory of Game Theory and Decision Making HSE
April workshop schedule:

2016, April 8

Kantemirovskaya st., 3, Higher School of Economics, **room 168**

- 9:30 – 10:00 Philip Ushchev (HSE) (joint with Y.Zenou (Monash University)):
Price Competition in Product-variety Networks
- 10:00 – 10:30 Sergey Kichko (HSE) (joint with K.Behrens (ESG-UQAM, HSE), P.Uschev (HSE)):
 ε -CES and its application to international trade
- 10:30 – 11:00 Sergey Ivaschenko (HSE, SPbEMI RAS, SPbSU):
Markov-switching quadratic Kalman filtering
- 11:00 – 11:30 Sergey Slobodyan (HSE):
TBA
- 11:30 – 13:00 *Lunch break*
- 13:00 – 13:30 Ekaterina Palamarchuk (HSE):
Time preference impact on long-term policy evaluation into linear-quadratic framework
- 13:30 – 14:00 Kirill Svetlov (SPbSU):
Using replicating portfolio method to estimate the cost of a loan for investment project
- 14:00 – 14:30 Herve Moulin (HSE, University of Glasgow):
It is harder to divide bads than goods
- 14:30 – 15:00 Anna Bogomolnaia (HSE, University of Glasgow):
TBA
- 15:00 – 15:30 Elena Yanovsakya (HSE):
A characterization of the Nash Maximum Product solution for divisible allocations
- 15:30 – 16:00 Fedor Sandomirskiy (HSE, SPbEMI RAS) (joint with Y.Ibragimova (HSE), A.Maricheva(HSE)):
Arrow-Debreu markets with linear utilities: equilibrium allocations under small perturbations of preferences
