

Workshop program “Modern problems of theoretical economics”

17.07.2025–18.07.2025

Venue: St. Petersburg, Kantemirovskaya str., 3, building 1, lit. A, auditorium 339

Time	Speaker
17.07.2025 10:00-11:45	<u>Section “Experiments”</u> Kiryl Khalmetski, PhD, Associate Professor of Economics, New Economic School. Topic: “Altruistic punishment as norm signaling”. Alexander Usvitskiy, PhD, Laboratory Head, International Laboratory for Experimental and Behavioural Economics; Assistant Professor, International College of Economics and Finance, HSE University – Moscow. Topic to be announced. Tatyana Zhuravleva, PhD, Research Fellow, International Laboratory for Experimental and Behavioural Economics; Assistant Professor, Department of Economics, St. Petersburg School of Economics and Management, HSE University – St. Petersburg. Topic: “Learning Responsibility: How Control Systems Shape Workers’ Decisions”.
12:00-13:45	<u>Section “Industrial Organization”</u> Tatiana Mayskaya, PhD, Assistant Professor, Department of Theoretical Economics, Faculty of Economic Sciences; Assistant Professor, International College of Economics and Finance, HSE University – Moscow. Topic: “Data Linkage between Markets: Hidden Dangers and Unexpected Benefits”. Anton Sobolev, PhD, Post-Doctoral Researcher, Department of Economics, University of Mannheim. Topic: “Dual Pricing in a Model of Sales”. Marina Sandomirskaya, Candidate of Sciences, Assistant Professor, Department of Theoretical Economics, Faculty of Economic Sciences, HSE University – Moscow; Research Fellow, International Laboratory of Game Theory and Decision Making, HSE University – St. Petersburg. Topic: “Optimal bias and pricing in vertically integrated platforms”.
15:00-16:45	<u>Section “Decision-making”</u> Arseniy Samsonov, PhD, Assistant Professor of Economics, Ozyegin University. Topic: “Logrolling and the power of single-mindedness”. Aleksei Kondratev, Candidate of Sciences, Leading Research Fellow, International Laboratory of Game Theory and Decision Making; Associate Professor, Department of Economics, St. Petersburg School of Economics and Management, HSE University – St. Petersburg. Topic: “Luck, merit, and scoring rules”. Alexander S. Nesterov, PhD, Laboratory Head, International Laboratory of Game Theory and Decision Making; Associate Professor, Department of Economics, St. Petersburg School of Economics and Management, HSE University – St. Petersburg.

17:00-18:00	Topic: “Sequential decision-making”. Hervé Moulin, PhD, Professor, University of Glasgow; Academic Supervisor, International Laboratory of Game Theory and Decision Making, HSE University – St. Petersburg. Topic to be announced.
18.07.2025 10:00-11:45	<u>Section “Game theory”</u> Kivanc Akoz, PhD, Assistant Professor, Department of Theoretical Economics, Faculty of Economic Sciences, HSE University – Moscow. Topic: “Inclusive Networks”. Anastasia Antsygina, PhD, Assistant Professor, Department of Theoretical Economics, Faculty of Economic Sciences; Senior Research Fellow, International Laboratory for Macroeconomic Analysis, HSE University – Moscow. Topic: “Support Link Formation in Contests”. Shahir Safi, PhD, Assistant Professor of Economics, New Economic School. Topic to be announced.
12:00-13:45	<u>Section “Mechanism design”</u> Alex Suzdaltsev, PhD, Assistant Professor, Department of Economics, St. Petersburg School of Economics and Management; Research Fellow, Center for Market Studies and Spatial Economics, HSE University – St. Petersburg. Topic to be announced. <i>Speaker 2 to be added</i> <i>Speaker 3 to be added</i>
15:00-16:45	<u>Section “Applied game theory and empirics”</u> Anna Shchiptsova, Candidate of Sciences, Research Fellow, International Laboratory of Game Theory and Decision Making, HSE University – St. Petersburg. Topic: “Student preferences: an empirical study for Russian university assignment system”. Yulia A. Kuchumova, PhD, Assistant Professor, Department of Economics, St. Petersburg School of Economics and Management, HSE University – St. Petersburg. Topic: “Tax audit expectations updating: direct and indirect effects of an audit”. Artem Sedakov, Candidate of Sciences, Professor, Department of Mathematical Game Theory and Statistical Decisions, Faculty of Applied Mathematics and Control Processes, Saint-Petersburg University. Topic: “Cooperation in partnership oligopolies”.
17:00-18:00	Anna Bogomolnaia, PhD, Professor, University of Glasgow; Academic Supervisor, International Laboratory of Game Theory and Decision Making, HSE University – St. Petersburg. Topic to be announced.
